## URGE BURLINGTON TO CHANGE SERVICE

COMMERCIAL CLUB WOULD BETTER TRAIN CONNECTIONS EAST.

## WILL DISCUSS COUNTY EXHIBIT AT FAIR TOO

Leaders From Over Nodaway Invited to Meeting of Civic Organization Next Tuesday—Plan Banquet

A meeting of the new special program committee of the Commercial club was held in the club rooms last night to arrange for the monthly club banquet, to be held next Tuesday night, July 13, in the basement of the Elks club. The banquet will begin at 6 o'clock and will be followed by speaking and business considerations. Music by Mauding's orchestra will be furnished during the banquet.

The program committee, consisting of Charles McNeal, W. O. Garrett and Walter Todd, also arranged partially for the business matters to come up that night, and issued invitations for a number of residents of the county, outside of Maryville, to be present at that time.

One move which will be taken up at the meeting is to try to get better passenger train connections on the Burlington at Creston, Ia., with through trains bound for Chicago and eastern points. J. D. Baker of St. Joseph, division passenger agent of the Burlington, has consented to be present and confer with the club relative to the proposition. W. E. Goforth, local agent, also will attend.

### Urges Better Train Service.

In addition to that, leaders of civic clubs and other business men and boosters of Hopkins, Pickering, Baffard and Arkoe also are urged to be present and assist the Commercial club here in getting the improved train service.

The plan of the club is to operate the north bound night train, No. 10, earlier than at present, so that it will arrive in Creston a few minutes before the eastbound Burlington through train arrives there. This is proposed in several ways. One is to start the train from St. Joseph about ten minutes earlier and await the Denver trains at Amazonia.

Then it is proposed that a few minutes be lopped off the waiting time at the various stations, making a cut of two minutes here, and to try to get faster running time otherwise, so that about twenty minutes in all may be saved.

### To Start County Exhibit.

With this improvement it is argued that persons or mail bound for Chicago may arrive the next morning, instead of the next afternoon, as at present. The same improvement would result to other eastern points.

A discussion relative to a county agricultural exhibit at the state fair at Sedalia next fall will be brought up at the meeting next week.

It is also planned to have boosters from every township in the county attend the meeting, that a plan may be launched at that time for having individual township exhibits at the county fair here this summer.

## COUNTY COURT IS DELAYED

Defer Requisition for State Road Aid to Improve Drafts—Talk on Fair Exhibit.

The formal requisition by the county court of Nodaway county for state aid for culvert construction, will be postponed until Saturday, on account of a desire to make the requisition drafts more specific and definite, according to W. M. Blackford, presiding judge. The court conferred with Commercial Club officials at 2 o'clock this afternoon relative to making a county agricultural exhibit for the state fair next fall and township exhibits at the county fair here this summer.

### TORNADO DELAYS WABASH.

Wrecking of Bridge Near St. Charles, Makes No. 1 2 1/2 Hours Tardy.

The west bound Wabash passenger train No. 1, due here at 6 o'clock this morning was two and one-half hours late in its arrival here, on account of the wrecking of an arch bridge near St. Charles by a tornado last night. Part of one Wabash train bound from St. Louis to Kansas City was blown from the tracks.

Trains are being detoured, temporarily, over the Chicago & Alton tracks.

### FERN SHOWED 2 GOOD PLAYS.

"Hypocrites" and "Anthony and Cleopatra" Depicted—First a Moral Play.

Two exceptionally good feature photo plays were shown at the Fern theater last night to crowds which should have been larger, considering the nature of one of the plays at least. It was "Hypocrites," written and produced by Lois Weber. It showed the hypocrisy of not only the people of ancient days but of today, as well, but did so in a pleasing, allegorical manner.

Another two-act feature of "Anthony and Cleopatra" also was good, and depicted the relations of the two at the time of Anthony's visit to Egypt.

## BURGLARIZE DEPOT

WABASH FREIGHT OFFICES ENTERED BUT NOTHING TAKEN

## SAFE DRAWERS BROKEN

Blood Hounds Fail to Find Trail—Believe Local "Talent" Responsible—Enter Through Window

A burglary of the Wabash freight depot, Fourth and Dunn streets last night was discovered by C. F. Welborn, assistant agent at 7 o'clock this morning, when he went to work. Entrance by the burglar or burglars was gained through an unlocked window on the north side of the depot.

The office safe yielded nothing to the invaders, neither did any other part of the building, as far as is known. The safe door was left open last night but two inner drawers doors were broken open and the contents, such as papers and records, scattered around. None were missing.

Chief of Police E. C. Moberly was notified and bloodhounds were taken to the depot but they failed to take a trail. It is believed the burglary was by residents, rather than by tramps passing through the city.

This is the first time the freight depot has been entered, though the passenger station has been robbed several times.

Residents near the depot say they saw no persons around the depot during the early part of the night and none report having heard any unusual noises nor light in the Wabash offices.

## MAY FREE HUERTA

U. S. TO DROP CHARGE AGAINST FORMER MEXICAN DICTATOR

## TO STOP INTERFERENCE

Say Past Chief Agrees to Leave Border and Cease Moves—Would Be American Gain.

Washington, July 8.—There were indications here that the case against General Huerta, charged with conspiracy to violate the neutrality of the United States by inciting a new Mexican revolution, might be abandoned. Huerta is due to appear before a United States commissioner for a hearing next week. Although officials are confident that there will be no prosecution and that Huerta will agree to leave the Mexican border and take up his residence somewhere in the northern part of the United States, to interfere no more in Mexican politics.

It was pointed out in official quarters that such a settlement would accomplish the chief end desired by the government, prevention of Huerta's return to Mexico to still further complicate the situation there.

## BEER KEGS AID IN WHEAT HARVEST

"EMPTIES" KEEP THE BULLWHEEL FROM SINKING IN MUD.

## RAINS DELAY CUTTING AND HURT GRAIN TOO

Farmers Report Nearly Half Finished Yield Averaging About 20 Bushels—Little Scalded.

A new expedient in wheat harvesting is being resorted to by a few farmers in Nodaway county by converting empty beer kegs into wheels to take some of the weight off the bullwheel, and thereby lessen the danger of the binder being stuck in the muddy fields. The plan was first tried in southern Kansas, but has rapidly spread through the eastern part of that state and into adjoining ones.

While few farmers in the county have resorted to this innovation, the talk of so doing is quite general, and oft is heard the remark on the streets these days of a farmer buying a beer keg without it arousing suspicion.

A more novel stunt was resorted to a few days ago, however, by a farmer living west of Maryville who took the bullwheel entirely off the binder, had a gasoline motor installed by Willard Woods, blacksmith, west of town, and placed the entire weight on the two beer kegs.

### Motor Replaced Bullwheel.

In this way the place of the bullwheel in operating the elevating and binding attachments was replaced with the gasoline motor, while the beer kegs kept the binder from miring, and also served as wheels to keep it going easier.

The general arrangement has been, however, to take a gas pipe about six feet long, attach it by two shorter irons or pipes to the rear support of the binder frame, and after boring a hole through the two ends of the kegs, place one of the "empties" at either end of the longer gas pipe or horizontal iron.

Where the bullwheel is let remain some weight is left on that wheel while the kegs take up the extra weight and keep the binder from sinking. W. S. Woods, living northwest of Maryville, said this afternoon that no farmers in his neighborhood had yet resorted to this method, on account of lack of beer kegs, but that some were considering making such an improvement if the rains continued.

### Wheat Harvest Is Slow.

Mr. Woods said not more than half of the wheat in that community had been harvested yet and that the fields were so soft in some instances as to make the harvest very slow this year. No wheat is reported to be scalded, but there is danger that the greener fields will if the sun should come out hot soon.

The winds and rains recently have caused some wheat to fall badly, though it is believed most of this can be saved if taken in time to prevent further falling.

While no farmer in Maryville today dares to estimate the average yield of Nodaway county wheat this season, the majority place their neighborhood yields at between 15 and 23 bushels per acre. It is estimated about half the crop has already been cut.

The poor unbalanced individual who started out to right all wrongs with dynamite and pistols has taken his own life and brought an end to his program of blood and misery.

The state asylum board seems to have sprung a joke on St. Joseph last Tuesday. They didn't create any excitement at all, and all declare the meeting was a perfect love feast.

A number of good men who have been considered likely candidates for state offices have dropped out of the running after estimating the cost of making a state-wide campaign. A careful computation will discourage most any man whose money has come in the sweat of his brow.

It will be fortunate if the attempt to blow up the United States capitol building and the attempt to murder J. The horrors of the European conflict, coupled with the loose talk and criticism that has been indulged by persons in sympathy was one of the other of the contending powers leads directly up to this sort of thing by cranks and men of weak minds.

Judge Waller W. Graves, who has been flirting with a gubernatorial boom, hesitates to take the step that will sever his connection with the excellent job he already holds. A place on the supreme bench is much to his liking and he has four years yet to serve, with a possible chance to be appointed to a place on the federal circuit, it is said. Judge Graves is a good man and would be a strong candidate, but is entirely justified in hesitating before leaving the place he holds to plunge into new and multiplied troubles.

## MARYVILLE PEOPLE

### PRAISE SIMPLE MIXTURE

Many in Maryville praise the simple mixture of buckthorn bark, glycerine, etc., known as Adler-I-ka. This remedy is the most thorough bowel cleanser ever sold, being even used successfully in appendicitis. One spoonful relieves almost any case of constipation, sour or gassy stomach. One minute after you take it the gasses rumble and pass out. Adler-I-ka cannot gripe and the instant action is surprising. The Koch Pharmacy.

More than twenty thousand owners are now telling their friends why this is far from being an ordinary car.

They emphasize its steadiness, the freedom from gear-shifting, the quick get-away and the absence of vibration. Among many evidences of quality they point especially to the full-floating rear axle, the unit power plant and the full real leather upholstery with natural curled hair filling.

## Twin Tires?—No

One's a Goodyear as It Might Be  
The Other Costs Us \$1,635,000 More

This is to prove that you can't judge tires by looks.

Here are two Goodyear tires, seemingly identical. But one is built like many of its rivals. Goodyear extras are omitted. The other has those hidden values. And those unseen extras, on this year's output, will cost us \$1,635,000.

This year's betterments alone add to our cost \$500,000 yearly. Yet our 1915 price reduction saves our users about five million dollars.

#### No Price Excuse

This is not a price excuse. Goodyear prices have been fairly racing down. Our late

big reduction made the third in two years, totaling 45 per cent. No equal tire can compete

with the Goodyear, because of our matchless output. None does. Goodyear excels all other tires in at least five important ways.

#### You Deserve It

You deserve the Goodyear quality when you buy a tire. You deserve Fortified Tires, with the No-Rim-Cut feature, the "On-Air" cure, our extra-strong fabric, our number of plies. You deserve in anti-skids our All-Weather tread, tough, double-thick and resistless.

These things have brought Goodyear the largest sale in the world. They are saving our users millions of dollars yearly.

They are at your command. Any dealer, if you ask him, will supply you Goodyear tires. (2481)

## URGE BURLINGTON TO CHANGE SERVICE

COMMERCIAL CLUB WOULD BETTER TRAIN CONNECTIONS EAST.

## WILL DISCUSS COUNTY EXHIBIT AT FAIR TOO

Leaders From Over Nodaway Invited to Meeting of Civic Organization Next Tuesday—Plan Banquet

A meeting of the new special program committee of the Commercial club was held in the club rooms last night to arrange for the monthly club banquet, to be held next Tuesday night, July 13, in the basement of the Elks club. The banquet will begin at 6 o'clock and will be followed by speaking and business considerations. Music by Maundling's orchestra will be furnished during the banquet.

The program committee, consisting of Charles McNeal, W. O. Garrett and Walter Todd, also arranged partially for the business matters to come up that night, and issued invitations for a number of residents of the county, outside of Maryville, to be present at that time.

One move which will be taken up at the meeting is to try to get better passenger train connections on the Burlington at Creston, Ia., with through trains bound for Chicago and eastern points. J. D. Baker of St. Joseph, division passenger agent of the Burlington, has consented to be present and confer with the club relative to the proposition. W. E. Goforth, local agent, also will attend.

### Urge Better Train Service.

In addition to that, leaders of civic clubs and other business men and boosters of Hopkins, Pickering, Baffard and Arkoe also are urged to be present and assist the Commercial club here in getting the improved train service.

The plan of the club is to operate the north bound night train, No. 10, earlier than at present, so that it will arrive in Creston a few minutes before the eastbound Burlington through train arrives there. This is proposed in several ways. One is to start the train from St. Joseph about ten minutes earlier and await the Denver trains at Amazonia.

Then it is proposed that a few minutes be lopped off the waiting time at the various stations, making a cut of two minutes here, and to try to get faster running time otherwise, so that about twenty minutes in all may be saved.

### To Start County Exhibit.

With this improvement it is argued that persons or mail bound for Chicago may arrive the next morning, instead of the next afternoon, as at present. The same improvement would result to other eastern points.

A discussion relative to a county agricultural exhibit at the state fair at Sedalia next fall will be brought up at the meeting next week.

It is also planned to have boosters from every township in the county attend the meeting, that a plan may be launched at that time for having individual township exhibits at the county fair here this summer.

## COUNTY COURT IS DELAYED

Defer Requisition for State Road Aid to Improve Drafts—Talk on Fair Exhibit.

The formal requisition by the county court of Nodaway county for state aid for culvert construction, will be postponed until Saturday, on account of a desire to make the requisition drafts more specific and definite, according to W. M. Blackford, presiding judge. The court conferred with Commercial Club officials at 2 o'clock this afternoon relative to making a county agricultural exhibit for the state fair next fall and township exhibits at the county fair here this summer.

## TORNADO DELAYS WABASH.

Wrecking of Bridge Near St. Charles, Makes No. 1 2 1/2 Hours Tardy.

The west bound Wabash passenger train No. 1, due here at 6 o'clock this morning was two and one-half hours late in its arrival here, on account of the wrecking of an arch bridge near St. Charles by a tornado last night. Trains are being detoured, temporarily, over the Chicago & Alton tracks.

## FERN SHOWED 2 GOOD PLAYS.

"Hypocrites" and "Anthony and Cleopatra" Depicted—First a Moral Play.

Two exceptionally good feature photo plays were shown at the Fern theater last night to crowds which should have been larger, considering the nature of one of the plays at least. It was "Hypocrites," written and produced by Lois Weber. It showed the hypocrisy of not only the people of ancient days but of today, as well, but did so in a pleasing, allegorical manner.

Another two-act feature of "Anthony and Cleopatra" also was good, and depicted the relations of the two at the time of Anthony's visit to Egypt.

## BURGLARIZE DEPOT

WABASH FREIGHT OFFICES ENTERED BUT NOTHING TAKEN

## SAFE DRAWERS BROKEN

Black Hounds Fail to Find Trail—Believe Local "Talent" Responsible—Enter Through Window

A burglary of the Wabash freight depot, Fourth and Dunn streets last night was discovered by C. F. Welborn, assistant agent at 7 o'clock this morning, when he went to work. Entrance by the burglar or burglars was gained through an unlocked window on the north side of the depot.

The office safe yielded nothing to the invaders, neither did any other part of the building, as far as is known. The safe door was left open last night but two inner drawers doors were broken open and the contents, such as papers and records, scattered around. None were missing.

Chief of Police E. C. Moberly was notified and bloodhounds were taken to the depot but they failed to take a trail. It is believed the burglary was by residents, rather than by tramps passing through the city.

This is the first time the freight depot has been entered, though the passenger station has been robbed several times.

Residents near the depot say they saw no persons around the depot during the early part of the night and none report having heard any unusual noises nor light in the Wabash offices.

## MAY FREE HUERTA

U. S. TO DROP CHARGE AGAINST FORMER MEXICAN DICTATOR

## TO STOP INTERFERENCE

Say Past Chief Agrees to Leave Border and Cease Moves—Would Be American Gain.

Washington, July 8.—There were indications here that the case against General Huerta, charged with conspiracy to violate the neutrality of the United States by inciting a new Mexican revolution, might be abandoned. Huerta is due to appear before a United States commissioner for a hearing next week. Although officials are reticent, persistent reports are current that there will be no prosecution and that Huerta will agree to leave the Mexican border and take up his residence somewhere in the northern part of the United States, to interfere no more in Mexican politics.

It was pointed out in official quarters that such a settlement would accomplish the chief end desired by the government, prevention of Huerta's return to Mexico to still further complicate the situation there.

## BEER KEGS AID IN WHEAT HARVEST

"EMPTIES" KEEP THE BULLWHEEL FROM SINKING IN MUD.

## RAINS DELAY CUTTING AND HURT GRAIN TOO

Farmers Report Nearly Half Finished Yield Averaging About 20 Bushels—Little Scalded.

A new expedient in wheat harvesting is being resorted to by a few farmers in Nodaway county by converting empty beer kegs into wheels to take some of the weight off the bullwheel, and thereby lessen the danger of the binder being stuck in the muddy fields. The plan was first tried in southern Kansas, but has rapidly spread through the eastern part of that state and into adjoining ones.

While few farmers in the county have resorted to this innovation, the talk of so doing is quite general, and oft is heard the remark on the streets these days of a farmer buying a beer keg without it arousing suspicion.

A more novel stunt was resorted to a few days ago, however, by a farmer living west of Maryville who took the bullwheel entirely off the binder, had a gasoline motor installed by Willard Woods, blacksmith, west of town, and placed the entire weight on the two beer kegs.

## Motor Replaced Bullwheel.

In this way the place of the bullwheel in operating the reaping and binding attachments was replaced with the gasoline motor, while the beer kegs kept the binder from miring, and also served as wheels to keep it going easier.

The general arrangement has been, however, to take a gas pipe about six feet long, attach it by two shorter irons or pipes to the rear support of the binder frame, and after boring a hole through the two ends of the kegs, place one of the "empties" at either end of the longer gas pipe or horizontal iron.

Where the bullwheel is let remain some weight is left on that wheel while the kegs take up the extra weight and keep the binder from sinking. W. S. Woods, living northwest of Maryville, said this afternoon that no farmers in his neighborhood had yet resorted to this method, on account of lack of beer kegs, but that some were considering making such an improvement if the rains continued.

## Wheat Harvest Is Slow.

Mr. Woods said not more than half of the wheat in that community had been harvested yet and that the fields were so soft in some instances as to make the harvest very slow this year. No wheat is reported to be scalded, but there is danger that the greener fields will be if the sun should come out hot soon.

The winds and rains recently have caused some wheat to fall badly, though it is believed most of this can be saved if taken in time to prevent further falling.

While no farmer in Maryville today dares to estimate the average yield of Nodaway county wheat this season, the majority place their neighborhood yields at between 15 and 23 bushels per acre. It is estimated about half the crop has already been cut.

The poor unbalanced individual who started out to right all wrongs with dynamite and pistols has taken his own life and brought an end to his program of blood and misery.

The state asylum board seems to have sprung a joke on St. Joseph last Tuesday. They didn't create any excitement at all, and all declare the meeting was a perfect love feast.

A number of good men who have been considered likely candidates for state offices have dropped out of the running after estimating the cost of making a state-wide campaign. A careful computation will discourage most any man whose money has come in the sweat of his brow.

It will be fortunate if the attempt to blow up the United States capitol building and the attempt to murder J. Pierpont Morgan by an insane man are not followed by an epidemic of similar attempts on the lives and property of prominent persons in this country. The horrors of the European conflict, coupled with the loose talk and criticism that has been indulged by partisans in sympathy was one of the other of the contending powers leads directly up to this sort of thing by cranks and men of weak minds.

Judge Waller W. Graves, who has been flirting with a gubernatorial boom, hesitates to take the step that will sever his connection with the excellent job he already holds. A place on the supreme bench is much to his liking and he has four years yet to serve, with a possible chance to be appointed to a place on the federal circuit, it is said. Judge Graves is a good man and would be a strong candidate, but is entirely justified in hesitating before leaving the place he holds to plunge into new and multiplied troubles.

## Twin Tires?—No

One's a Goodyear as It Might Be  
The Other Costs Us \$1,635,000 More

This is to prove that you  
can't judge tires by looks.

Here are two Goodyear  
tires, seemingly identical. But  
one is built like many of its  
rivals. Goodyear extras are  
omitted. The other has those  
hidden values. And those un-  
seen extras, on this year's out-  
put, will cost us \$1,635,000.

This year's betterments  
alone add to our cost \$500-  
000 yearly. Yet our 1915  
price reduction saves our  
users about five million dollars.

### No Price Excuse

This is not a price excuse.  
Goodyear prices have been  
fairly racing down. Our late  
big reduction  
made the  
third in two  
years, total-  
ing 45 per  
cent. No  
equal tire  
can compete

with the Goodyear, because  
of our matchless output. None  
does. Goodyear excels all  
other tires in at least five im-  
portant ways.

### You Deserve It

You deserve the Goodyear  
quality when you buy a tire.  
You deserve Fortified Tires,  
with the No-Rim-Cut feature,  
the "On-Air" cure, our extra-  
strong fabric, our number of  
plies. You deserve in anti-skids  
our All-Weather tread, tough,  
double-thick and resistless.

These things have brought  
Goodyear the largest sale in  
the world. They are saving our  
users millions of dollars yearly.

They are at  
your com-  
mand. Any  
dealer, if you  
ask him, will  
supply you  
Goodyear  
tires. (2651)
